2. يتكون الاختبار من 4 أسئلة .

الأول نظري	الثاني	الثالث	الرابع	المجموع
15	10	10	5	40

الدرجة الكلية

30/

مدة الإختبار: 3 ساعة

الوقت: 12:00 مساء

التاريخ: 2026/02/10

Q1- Products Dashboard (10 Marks)**Requirements****1. Fetch Products**

- Fetch products from: <https://dummyjson.com/products>
- Store products in state.
- Display “Loading...” while fetching data.

2. Display Products

- Create a reusable **ProductCard** component.
- Use **Tailwind CSS** file.
- Props: title, price, stock, thumbnail
- **Conditional rendering inside ProductCard:**
 - If stock $\geq 1 \rightarrow$ show **Available badge(Green)**
 - If stock $< 1 \rightarrow$ show **Out of Stock badge(Red)**
- Display products in **Grid View** using `.map()` and `key={id}`.

3. Filter Products

- Add a dropdown with options:
 - All
 - Available (**stock ≥ 1**)
 - Out of Stock (**stock < 1**)
- If no products match the filter $\rightarrow$ show: “No products found”

Q2 — Create Report Form (10 Marks)

Create a component called **CreateReportForm** to add and manage reports.

Form Fields:

- Report Title (input)
- Category (select: WASH / Food / Medical / Protection)
- Description (textarea)

Requirements:

1. Use **useRef** for all input fields (do not use `useState`)
2. Validation (Title only): required, minimum 5 characters

3. On submit:
 - Add report to a **reports list** (useState)
 - Clear input fields after adding
4. Display reports list under form using cards
 - Each card has a **Delete button** to remove the report
5. Use **Tailwind CSS**.
6. Show the error messages in red color.

Q3: Routing Integration (5 Marks)

Integrate the components from Question 1 and Question 2 into a single React application using React Router.

Routes & Components

1- Configure the following routes:

1. /products

- Render the Products Dashboard component (from Question 1).

2. /reports

- Render the CreateReportForm component (from Question 2).

2- Navbar Requirements

- Create a component called MainNavbar.
- Include navigation links:
 - Products
 - Reports
- Use NavLink to:
 - Navigate between routes.
 - Highlight the active route.
- The navbar must be visible on all pages.
